Editorial

A tribute to Hugh Dove

Readers of Grass and Forage Science

It is with great sadness that I am writing to advise you of the passing of our former Editor, Friend, Colleague and Mentor - Hugh Dove. Hugh served with great distinction as Editor in Chief of this journal and the continued success of Grass and Forage Science is one of many legacies that Hugh leaves to the Grass and Forage Science community.

On a personal note Hugh was a mentor to me since serving as one of my PhD supervisors and I could always rely on him to provide a unique combination of academic rigour and good humour to every situation that was put before him.

It is too hard to summarise Hugh's many achievements but their significance was recognised in 2017 when he was made a Member of the Order of Australia (AM) for his significant service to agricultural science as a researcher and editor, and to the study of animal nutrition. To this we could add a mentor and friend to many.

Rest in Peace - Hugh.
