Erratum to: Long-acting methylphenidate formulations in the treatment of attention-deficit/hyperactivity disorder: a systematic review of head-to-head studies

David Coghill1*, Tobias Banaschewski2, Alessandro Zuddas3, Antonio Pelaz4, Antonella Gagliano5 and Manfred Doepfner6

Correction
After publication of this work [1], we noted that a figure reproduced from Lopez et al. [2], was revised in an erratum.

In Figure three (Fig. 1 here), the uppermost solid line represents placebo and the lower solid line (at 0.5 h), represents Ritalin LA® 20 mg capsule. In addition, labelling of the x-axis should read “0.5, 1, 2, 3, 4, 6, 8” hours.

Author details
1Division of Neuroscience, Medical Research Institute, Ninewells Hospital and Medical School, Dundee, UK. 2Department of Child and Adolescent Psychiatry, Central Institute of Mental Health, Medical Faculty of Mannheim, University of Heidelberg, Mannheim, Germany. 3Department of Biomedical Sciences, University of Cagliari, Cagliari, Sardinia, Italy. 4Department of Child and Adolescent Psychiatry, Hospital Clinico Universitario San Carlos, Madrid, Spain. 5Department of Pediatric Science, University of Messina, Policlinico Universitario G. Martino, Messina, Italy. 6Department of Child and Adolescent Psychiatry, University of Cologne, Cologne, Germany.
