

**Article Type: Short Note**

**Addendum**

Slatyer, R. A., Nash, M. A. & Hoffmann, A. A. (2017), Measuring the effects of reduced snow cover on Australia's alpine arthropods. *Austral Ecol.* doi: <https://doi.org/10.1111/aec.12507>

The authors would like to draw the reader's attention to an update in the following article:

The morphospecies referred to as *Paronellides* sp. at Mt Twynam has now been described as *Paronellides praefectus* Zhang, Ma, & Greenslade 2017, while the morphospecies referred to as *Pseudoparonella* sp. at Mt Twynam has now been described (in a new genus) as *Zhuqinia jingwanae* Zhang, Ma, & Greenslade 2017.

This does not affect the results and analyses presented in the paper.
